

Pakistan Coal Fired Steam Power Plant 1x90t/h+1x12MW Project

Contract No:
Total Pages:

Designed:
Checked :

Project Schedule

Activity Description	Month																											
	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24				
Contract Award																												
Steam Turbine Generator																												
Design/Approval																												
Procurement, Manufacturing and Transport																												
Hoist Bridge Crane																												
Install Condenser																												
Install Generator																												
Install Steam Turbine																												
Install Steam/water Cycle Equipment																												
Install Auxiliary CW System																												
Install Electrical & Instrumentation Works																												
Test & Commission ST Unit																												
Boiler																												
Design/Approval																												
Procurement, Manufacturing and Transport																												
Install Stack																												
Install Boiler																												
Install Other Auxiliary Equipment																												
Install Piping & Ducting

Project Schedule

Activity Description	Month																							
	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24
Install Electrical & Instrumentation Works																								
Test & Commission Boiler Unit																								
Cooling Water System																								
Design/Approval																								
Procurement, Manufacturing and Transport																								
Install Main CW Pipeline (Intake)																								
Install Pump and Screen																								
Test & Commission CW System																								
Coal & Ash Handling System																								
Design/Approval																								
Procurement, Manufacturing and Transport																								
Install Coal & Ash handling Plant																								
Install Electrical & Instrumentation Works																								
Test & Comm. Coal & Ash Handling Unit																								
Chemical Water System																								
Design/Approval																								
Procurement, Manufacturing and Transport																								
Install chemical water Treatment																								
Install Electrical & Instrumentation Works

Project Schedule

Activity Description	Month																								
	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	
Test & Comm. Chemical water treatment																									=====
Civil Works																									
Design/Approval																									
Procurement, Manufacturing and Transport																									
Piling																									
Foundation																									
Erection for Steel Structure Boiler																									
Erection for Steel Structure Turbine Building																									
Roof & Cladding Boiler Unit																									
Roof & Cladding TB. Unit																									
Coal & Ash Handling Area																									
Cooling Water System Area																									
Control Room Building																									
Other Works																									
Electrical Works																									
Design/Approval																									
Procurement, Manufacturing and Transport																									
Install 10.5KV Switchyard																									
Install Elec. Works (MCC, PDC, Cable, Etc)																									
Install Transformer																									
Test & Commission Electrical Part Unit																									=====

Instrumentation & Control																									
Design/Approval			=====																						
Procurement, Manufacturing and Transport							———																		
Install Hardware Software Design& Common																									
Install Erection WTP & Software WTP																									
Test & Commission I & C Unit																									
Other Works																									
Design/Approval					=====																				
Procurement, Manufacturing and Transport							———																		
Install Waste Water treatment Plant																									
Install Water Tank																									
Install Fire Fighting Plant																									
Install Fuel Oil Plant																									
Install Compressed Air Plant																									
Install Ventilation & Air Conditioning																									
Test & Commission Other Unit
