Brand Introduction

**Hongwei Power never stops,
committed to smart green
transformer service.**

has 21 years of experience in power transformer manufacturing and is a professional OEM. Adhering to the philosophy of "Supply power to the world and illuminate life", the company is well-equipped with a professional R&D team, strong design and R&D capabilities, and great competitiveness.

We provide various power transformers and customized solutions. Our products are sold nationwide and exported to more than 50 countries and regions, including Russia, the United States, Vietnam, Malaysia, Thailand, Indonesia, the Philippines, Saudi Arabia, the UAE, Nigeria, South Africa, Kenya, Ethiopia, Brazil, Argentina, Chile and Peru. They are widely used in power grids, power generation, transmission and distribution, metallurgy, mining and other key fields.

The company has complete qualifications, stable product quality and perfect after-sales service. We have ISO 9001:2000 certification and have been awarded "AAA Credit Enterprise" and "Chinese Famous Brand". We adhere to core principles and expand globally.

Prefabricated Substation

The Puerto Rico power Transformer project

Our Puerto Rico power transformer project has successfully completed the power transmission and been delivered successfully. The project has a capacity of 112 MVA and a high voltage level of 336 kV. All electrical performance indicators have met international standards and have been smoothly accepted by the local power department. This not only indicates the improvement of our company's overseas performance capabilities, but also represents an important achievement in expanding the market in the Americas and demonstrating global competitiveness. The quality of performance has been highly praised by customers and local relevant departments.

Ethiopia

The installation project of the 12.5 MVA transformer is currently progressing smoothly and is about to be completed successfully.

New York, USA

The 750kV transformer installation project in New York, USA is progressing smoothly, with professional installation and commissioning carried out.

New Zealand SZ- 8000/110-10kV Transformer Project

Our company successfully completed the on-site installation technical guidance for the NZ SZ-8000/110-10kV transformer project. The professional team was on-site throughout the process and responded promptly. With meticulous and considerate services, they received high praise from the client. Both parties reached an intention for long-term cooperation and will continue to deeply explore the overseas power market.

The US power station project

Successfully provided 100MW site substation specialized services for 500-strong power enterprises in the United States. The project covered new scenarios such as data centers and renewable energy power generation. With high-standard technical solutions and full-process performance capabilities, we deeply participated in overseas clean energy and digital new infrastructure construction, setting a benchmark for cross-border power engineering services.

03

Overseas Service Cases

Installation of transformers in Saudi Arabia

03

Overseas Service Cases

Thailand Transformer Project

The transformer project in Thailand was successfully delivered, providing customized equipment and on-site installation guidance for the local power system. The products comply with international electrical standards, operate stably and efficiently, and have won high recognition from customers with their professional technology and considerate services. The project has successfully set a benchmark in overseas markets and continues to deeply penetrate the Southeast Asian power market.

Turkish Transformer Project

The Turkish transformer project is steadily progressing and has successfully provided efficient and energy-saving power transformer equipment to local power grids and industrial users. With its stable performance, professional technical support and full-process services, it has won high recognition from customers, further consolidating the layout in the Eurasian market and facilitating the construction of regional energy infrastructure.

Zimbabwe Transformer Project

Zimbabwe Transformer Project Solving the electricity problem for the people of Africa

German Transformer Project

Deeply penetrate the German market, high-quality transformers empower the construction of the European smart grid

Transformer Overseas
Service Project from 2020 to 2026

Country	Product category	Product model
Canada	Single-phase Pole-mounted Transformer	10 kVA 7.2kV/120/240V No-load loss: 40W (max +10%)
	Single-phase Pole-mounted Transformer	25 kVA 7.2kV/120/240V No-load loss: 75W (max +10%)
The United States	Oil-immersed Distribution Transformer	750 kVA 12.47kV/0.48kV Dyn1 No-load loss: 950W (max +10%)
	Oil-immersed Distribution Transformer	1000 kVA 12.47kV/0.48kV Dyn1 No-load loss: 1100W (max +10%)
	Oil-immersed Distribution Transformer	2000 kVA 12.47kV/0.48kV Dyn1 No-load loss: 1900W (max +10%)
	Three-phase Pad-mounted Transformer	300 kVA 12.47kV/208Y/120V No-load loss: 520W (max +10%)
	Three-phase Pad-mounted Transformer	500 kVA 12.47kV/208Y/120V No-load loss: 780W (max +10%)
	Three-phase Pad-mounted Transformer	750 kVA 12.47kV/208Y/120V No-load loss: 1050W (max +10%)
	Three-phase Pad-mounted Transformer	2500 kVA 12.47kV/0.48kV No-load loss: 2400W (max +10%)
	Single-phase Pole-mounted Transformer	25 kVA 7.2kV/120/240V No-load loss: 75W (max +10%)
	Single-phase Pole-mounted Transformer	50 kVA 7.2kV/120/240V No-load loss: 135W (max +10%)
Mexico	Oil-immersed Distribution Transformer	2500/4.16/0.48Dyn11±2×2.5%6%/T/C/(3808.222)
	Oil-immersed Distribution Transformer	1000/4.16/0.48Dyn11±2×2.5%5.75%/T/C/(3804.214)
